Join us for the December Fusion Mixer.

Fusion is a group of local business people that has "Fused" together to unite local business owners to help grow everyone's business.

This is an open networking event set up in a mix and mingle, business casual style.

Are you tired of the 30 second commercials that turn into 1-2 minute pitches?

Are you tired of sitting through them all when what you want to do is go over and actually talk to people?

Are you needing to get in front of new people?

This event caters to business people of all types in an open networking event where everyone is welcome. Come on out, have a drink, maybe an appetizer and get to know other business people from all around the valley.

Fusion is free and there are no membership fees and no attendance rules. If you arrive early or late, stay the entire time or only for a few minutes it is up to you.

This is business networking the way it should be.

Join us, We look forward to getting to know you and your business.
