

Dear Chamber member,

The **National Clean Energy Summit** returns to Las Vegas, Nevada to focus on “The Future of Energy” on Tuesday, August 30, 2011 at Aria Resort and Casino at CityCenter.

Co-sponsored by the Center for American Progress, Clean Energy Project, MGM Resorts International, Senator Harry Reid and UNLV, this year’s *National Clean Energy Summit 4.0: The Future of Energy* will once again bring together veteran business executives, energy policy innovators, entrepreneurs, investors, and senior public officials from both parties, along with citizens, students, and the media, to discuss the future of our nation's energy in an effort to help speed adoption of better energy policy and make our nation more competitive in the global clean energy economy.

Notable speakers at this year's Summit include: **U.S. Senator Harry Reid**, Center for American Progress President/CEO **John Podesta**, Chairman and CEO of MGM Resorts International **Jim Murren**, **Secretary of Energy Steven Chu**, **Secretary of the Navy Ray Mabus**, **Nevada Governor Brian Sandoval**, **California Governor Jerry Brown**, and **Washington Governor Christine Gregoire**.

For registration, agenda and hotel information, visit cleanenergysummit.org

Since 2008, these dynamic Summits have become one of the country's most visible and influential gatherings of leaders and creative policy makers helping to bring about the transformation to a clean energy economy.
