Dear Member,

It is time to begin selling advertisements in the 2017 Relocation and Visitors Guide, and we'd like to share with you the great opportunity this is for your business. With the positive response we received on the release of the previous issues, we had a waiting list for inclusion. This publication is the main book used to promote our community to guests, planning travelers, and future new residents. It has become the signature piece used to publicize all that Boulder City has to offer.

Relocation and Visitor Guides are sent to all requests of the Chamber office, are at all the special events, are given to all vendors and entertainers that attend special events, are included in all VIP packets, are distributed among gateway points and welcome centers across the State and in surrounding communities such as Bullhead City and Dolan Springs, AZ. They are available for each of our members to distribute as well. We also have a contract to have them in many of the visitors centers located in Las Vegas, California and Arizona through our Certified Folder Display campaign.

Please refer to the enclosed brochure outlining the pricing, sizing, and details regarding your advertising. We will print 35,000 for distribution for the year 2017.

Janelle Shields, of Phantasm Graphics, will be producing the publication this year. She will be contacting you, or you're welcome to call her direct. Her contact information is below.

Thank you for your consideration. We appreciate your support in allowing us to make a great publication that Boulder City can be proud of as it welcomes guests and friends to our area.

Sincerely,

Jill Rowland-Lagan, CEO

Glossary of Terms

Bleed is a printing term that refers to printing that goes beyond the edge of the sheet after trimming. It is very difficult to print exactly to the edge of a sheet of paper, to achieve this it is necessary to print a slightly larger area than is needed and then trim the paper down to the required finished size.

Images, background images and fills which are intended to extend to the edge of the page must be extended beyond the trim line to give a bleed.

The final size of a printed page after excess edges have been cut off is the trim size.

The live area is a safe zone for important text or images. This is an area of your printed piece that is safe from cropping. Keep text and important graphics inside the live area.
