# EAR4BRAX.ORG

We are an organization with a mission to help financially assist children with Microtia/Atresia. This is a congenital deformity where the pinna (outer ear) is very small and underdeveloped (microtia) or absent (anotia). It occurs in 1 out of about 8,000 births. There are minimal treatment options, and majority of medical insurance companies only cover about 20% of these procedures.

## "Our Journey Starts with One"

Braxton Wennberg was born July 9th, 2005. He was born with Stage III Microtia and Atresia. Which is the absence of the external ear with a small peanut vestige structure and an absence of the external ear canal and ear drum. He has no hearing from this ear. Braxton also has chronic ear infections accompanied with hearing loss in his only good ear, his left ear. He loves to play sports such as football and t-ball. Despite his medical challenges Braxton is a very happy five year old. Braxton loves to play with his friends, sports and play video games. Braxton recently started kindergarten and enjoys school immensely. Unfortunately, treatment for Braxton's medical challenges will lead his family down a very difficult path, financially and mentally. There are very few doctors in the United States who can perform procedures on the microtia ear as well as rebuild the inner ear. Our goal is to get this little boy the help he needs.

We will be having many Fundraising Events in the upcoming months, including a Golf Tournament and Fundraiser Dinner. We are accepting Raffle Prizes and or Donations for these events. Your participation is crucial for us to meet our goal in giving this young child, along with many others in the future a chance to have what so many of us take for granted. So please join us on this journey to help these amazing children.

*Please visit our website for further information, and feel free to contact us with any individual questions.*
