

Florida Department of Economic Opportunity Announces Launch of Rebuild Florida General Planning Support Program

TALLAHASSEE, Fla. – Today, the Florida Department of Economic Opportunity (DEO) announced \$20 million is now available to local governments through the Rebuild Florida General Planning Support Program. The Rebuild Florida General Planning Support Program is designed to provide funding opportunities for local governments, educational institutions, state agencies and non-profits to develop or update state, regional or local plans which will enable the state of Florida to withstand future disasters.

The funds are allocated through HUD's newly created Community Development Block Grant – Mitigation (CDBG-MIT) program formed in response to the 2016 to 2017 presidentially declared disasters.

Local governments, educational institutions, state agencies and non-profits may apply individually for funding to propose projects that meet program requirements, including benefiting low-to-moderate income (LMI) populations.

The deadline to complete an application is July 31, 2020, and DEO staff will be available to provide technical assistance to communities during the application process. For more information about the program, including how to complete an application, visit the Rebuild Florida General Planning Support Program's [webpage](#).
