

Missouri Natural Gas Company is Hosting a Free Poverty Simulation

The Poverty Simulation is a profoundly moving experience. It moves people to think about the harsh realities of poverty and to talk about how communities can address the problem. Most importantly, it inspires people to make a difference.

This half-day program brings together social service providers, elected officials, clergy, educators, employers, and others to experience first-hand a typical month of living in poverty. Participants play the roles of family members struggling to meet basic needs without enough money. Then they come together to discuss how they felt and what they learned.

We would like to invite you and your employees to this special event that is being held. Space is limited so please RSVP by calling or e-mailing Becky as soon as possible.
