**OUR TEAM,
YOUR SOLUTION**

Progressive Compensation Risk Advisors, Ltd. assists employers in obtaining significant discounts off their workers' compensation premiums. Group Rating allows employers of similar industries to join together and achieve discounted premiums. Currently the State of Ohio offers group discounts up to 53%. As you can imagine, paying only 47% of your premiums would give your company an overwhelming advantage over your competition.

ProComp offers a wide range of group plans, tiered to meet most every employers' rating history. Group discounts change every year, so please take the time to complete the enclosed temporary authorization form. ProComp will research your claims and premium information to determine your eligibility. Once we have analyzed your information, our group rating department will provide your company with a detailed estimate of the savings that could be realized through one of our group plans.

When you join one of our group rating plans, not only will you significantly reduce your workers' compensation premiums, but in addition, you will also have access to our professional staff to assist in all your workers' compensation issues.

Remember, you must enroll annually. Each group plan is unique and discounts vary, so compare rates and benefits. We are confident that you will be pleased with our fast and professional service. For further information please feel free to contact our group rating department at (866) 302-2667.

Please note, if you are currently a ProComp client you do not need to reply to this request. All clients are automatically reviewed annually for participation. Employers will begin to receive their group rating savings reports in August.
