

**Option A. Trinity Drive -- “As Is”**

Trinity Drive currently consists of 5 lanes of traffic (2 in each direction plus a continuous turn lane) and minimal sidewalks widths on the north and south sides.

The table below provides a look and the advantages, drawbacks, and challenges of the existing street design.

| Advantages   | Drawbacks   |
|--|---|
| <ul style="list-style-type: none"><li>▪ Moves traffic sufficiently through and out of town</li><li>▪ As Is requires no changes to storm drainage</li></ul> | <ul style="list-style-type: none"><li>▪ Not pedestrian or bicycle friendly</li><li>▪ Noisy</li><li>▪ Visually unattractive</li><li>▪ No landscaping</li><li>▪ Acts as barrier between north and south side of street</li><li>▪ Street in need of repair</li></ul> |
