

Women in Science & Engineering Symposium

20-21 August 2015

Patrick Air Force Base

Who: Women and men wanting to encourage a diverse technical workforce (US citizens only)

What: Speakers, panels & discussions encouraging mentoring and diversity in science, technology, engineering and math (STEM) fields, including success stories in breaking cultural barriers and networking opportunities.

Keynote Speakers:

- Dr. Jarris Taylor, Deputy Assistant Secretary of the Air Force for the Strategic Diversity Integration
- Ms. Carol Craig, Founder and CEO of Craig Technologies, a local tech org with ~400 associates
- Dr. Eileen Preisser, Senior Air Force Representative to the NGA
- And many more local and national-level Scientists, Engineers and STEM Executives from government, industry, and academia

Cost: Free! \$20 optional event fee for snacks and refreshments – paid at the door

“Diversity of background, experience, demographics, ... are essential to our ultimate success.”

**– Ms. Deborah Lee James,
Secretary of the Air Force**
