"I have been enhancing the quality of life of those in need of my help in the hearing healthcare field for over 16 years and I am dedicated to restoring lives through better hearing. 10 of those years were spent in Pennsylvania, before moving to Florida and serving over 70 clinics located in both Florida and Texas as a manufacturers' expert, trainer and mentor for over 6 years."

"I am now inviting you to my open house, giving you the opportunity to test out the latest technologies that are restoring quality of life through better hearing."

"Hear the precious whispers of those you love this coming holiday season."
