

The Brevard Nature Alliance Board of Directors and staff has spent the past six months reviewing and updating ByLaws, Policies, 501 (c) (3) Governance documents and community commitments. Along with this process, we are introducing Barb Eager as Executive Director. Effective May 1, 2016, Mrs Eager is responsible for all operations activities of the Alliance as well as the Space Coast Birding and Wildlife Festival and other community commitments.

Neta Harris, working with the Festival and Alliance since 1997, will continue in a pivotal position providing specialized knowledge, skill set of marketing initiatives, Grant writing and funding resources. Ms. Harris background has included business ownership, corporate leadership and a long-time active role as an environmental and nature-based tourism advocate.

Barb Eager and husband, Jim, have lived in Cape Canaveral for ten (10) years. She brings a background of over 35 years in tourism, national event and conference planning. Mrs Eager has twenty (20) years experience affiliated with environmental education as a Deputy Director of administration and annual conference logistics. She was responsible for the day to day operations of international core services including staff management, publications, annual budget and grant oversight. Within the past 10 years she locally worked and volunteered with several eco-tourism businesses.

Neta will be helping to introduce Barb to the Brevard community organizations and businesses that have been instrumental in the successful growth of the Brevard Nature Alliance and the Space Coast Birding and Wildlife Festival. --
