

The White Sulphur Springs School Day was a great success. The kids loved it and so did the parents and teachers. We had 45 kids, at least 12 parents, the two third grade teachers, and 12 volunteers. The stations were all well received with one little boy summing it up by saying "all of the stations were his favorite"!! I have attached a note from Linda Cooley who took lots of pictures. I think it is safe to say we definitely should do this again next year and should discuss the possibility of expanding to a few more third grades.
