Nina DeAngelo

1. How long have you been in the O'Fallon area?

I moved here from Texas in July of 2005, so a little over 6 years now.

2. Tell us about your family?

I am married to a wonderful man who is also my best friend. We have three children, an 18 year old girl, a 12 year old boy, and a 15 month old baby girl. Yes I know, quite the age gap there. I suppose I will never have to worry about "empty nest syndrome"!

3. What is your educational background?

I have a Bachelor's of Science in Criminal Justice Administration. I received this degree through a lot of hard work at the University of Phoenix.

4. Tell us about your organization?

Reliance Bank has been around since 1999. We started as a small one branch organization on Manchester Road in Des Peres. Over the course of 10 years we expanded to a 20 branch St Louis community bank network.

We are a full service bank offering all of the products of a large bank but

with the small community bank atmosphere and feel. We take pride in knowing our customers by name and we will answer our phones when you call our branches. We don't believe in "touchpad run around".

We have 3 branches in St Charles County, 13 branches in St Louis County, and 4 branches just to the east in Illinois. All of branches are the same when it comes to customer service. I know you hear everyone talking up how great their customer service is, but you really have to visit one of our locations to experience it for yourself!

So the next time you are looking for that small business line of credit, a mortgage on your home, or fee free accounts, stop on by to see what Reliance Bank has to offer.

5. What is the mission/vision of your organization?

To offer all of the banking products at competitive prices found at the bigger banks but maintain that friendly hometown community bank atmosphere while delivering superior customer service.

6. How has that mission changed over the years that you have been in business?

Our mission has not changed over the years. Superior customer service and satisfaction have been our goal since day one and we've consistently delivered such since we opened our doors back in 1999.

7. What do you do to get to know your clients best?

We get to know our customers on a more personal level. We are interested in you as a person and not just a customer. We get to know your business, your family, friends, and pets! We listen to your needs and put you into products that will best fit you, your business and your family's financial needs. We currently offer a "Business of the Month" recognition table where we pick one of our business customers to bring in wares and literature to advertise their business right inside our lobby! If you would like to display your business in our lobby, stop by and see me so we can talk about it!

8. What are you most looking forward to in the next 5 years for the company?

I'm most looking forward to getting Reliance Bank's name out there into the community. We're not just "another" bank, we're THE bank! Once you come in and meet our staff you won't want to bank anywhere else!
