Taxable sales are reported by business entities at the county level. Retail sales for businesses entities with more than one location in Nye County are calculated by dividing the total sales by the number of locations under the same ownership.

The above reported sales do not include mobile home dealers, food caterers, catalogue & mail order houses, merchandising machine operators, direct selling organizations, fuel oil and natural gas dealers, news dealers, or newsstands.

d - Disclosure limitations. The values are not reported in order to protect sales information of individual businesses.
