Adjourn

MESSAGE FROM THE PRESIDENT

Fellow Chamber Members,

The beautiful weather has allowed us to get a head start on Spring activities around town. A busy event schedule starts off with the Car Show, and of course we are in for a cold front. I'm pretty sure that will not stop our mountain folks from coming to Main Street in Bailey and check out the 50+ signed up cars. The 285 Tourism map project is complete and expected back from the printer on May 17, ready for distribution.

Our Bailey Day planning committee is working hard to get everything lined up for the big event on June 15 & 16. We are still in need of volunteers and those interested in learning more about helping out, please join our next meeting on Wednesday May 30, 6pm at Rustic Station. We are also in need of a few volunteers for the combined mixer at the Lewis Barn in Marshdale on June 28. As you can see, there is plenty on tap. Please help us make these events a great success. Our combined directory with Conifer is also in its final stages and should be

released in the near future. As you can see we have a lot of tools in place to make this year a breakout. There are many reasons to get excited for the upcoming summer season, and I wish all businesses great profitability. On another note, I would like to hear from you regarding speakers for our general meetings. Please send me an email with your suggestions. I realize we have been concentrating on tourism lately, but going forward we are interested in successful business building, planning, growing, etc. Attached find the flags for this years "Bailey is open" campaign. Please vote for one number by sending me an email at info@aspenseakcellars.com

Finally, we are in need of sprucing up the kiosk at the top of Crow Hill. It needs some repair, new information, maps, brochures, etc. The garden looks really nice. Also feel free to bring your brochures to Knotty Pine, as Barb has agreed to host Chamber information in a specific area.

Make it a lucrative month.
Marcel Flukiger

KENOSHA CAFÉ at 50544 US Hwy 285, Grant Co 80448 is owned by Loftin, Mike Janner, and Scott Dugan. Dugan also owns the Tumbling River Ranch, where Loftin is the executive chef. Loftin said he and Janner are classically trained chefs.

The breakfast menu includes the best biscuits and gravy in Colorado, he said, as well as breakfast burritos, baked goods and pastries. Everything is made from scratch; nothing's brought in from the store, he said. Loftin also uses local quality ingredients, including beef and farm fresh eggs.

The lunch menu will include traditional items, like sandwiches and burgers. It also includes some gluten free options and vegetarian items.

A customer in the café was overheard saying it's

nice to have a restaurant in the middle of nowhere. Loftin said he wants the café to be the place in the middle of nowhere with amazing food.

Jerry Humphrey, vice president with the chamber, said it's great that another business has opened in the area.

There is space available for meetings, said Loftin. There are two front porches with tables, and outdoor seating will be available. There are also plans to build a patio off to the side of the building.

When the ranch opens in the summer, Loftin will be working there full time and will need some local help through the summer at the café. He will return to the café when the ranch closes in September.

Information taken from the May 7th, 2012 issue of the Fairplay Flume

BUSINESS OF THE MONTH

Mountain Connection 6949 Highway 73, Suite #7 Marshdale, Co was created almost 18 years ago to support and enable nonprofits, in addition to being an positive publication about family and community. It continues to hold that mission dear today. In addition to nearly \$92,000 in cold hard cash donated to nonprofits by this newspaper, Mountain Connection builds community and helps etch positive community identity by publishing local people writing positive articles about history, family, the environment and life in general.

We have monthly themes that our entire readership is invited to write about each month.

Additionally, Mountain Connection partners with the Conifer and Platte Canyon chambers to create their chamber directories. The directories also serve as community magazines. The Mountain Connection proposed this unique relationship in which the chambers and the newspaper are "partners." The newspaper sells and creates the ads and the magazine pages. The chambers prepare their membership lists. It is another way of supporting our communities and building positive identity in the Mountain Connection area. We are connectors making positive connections!

All articles are written by local residents who donate their stories that are positive, entertaining or educational. There are no reporters on staff. We leave the "hard news" reporting to the community "news" newspaper. As a matter of fact, the Mountain Connection publisher actually encourages people to subscribe to the area's "real" newspapers so the readers can be up to date about important news. Informed citizens make for a better community. It's all about community!

Mountain Connection is different from typical newspapers. Mountain Connection is a free inoculation of "positive" stories about and by local people – our neighbors – to every business and home in the newspaper's circulation area. The Mountain Connection is mailed to about 20,000 homes and businesses from Genesee through Evergreen, Kittredge, Conifer, Morrison, Pine and Bailey. Check us out on the web at <http://mtnconnection.com> Publisher/Owner Jacqueline B. Scott at 303-674-3701 email info@mtnconnection.com.

Part 2 of 2

The Importance of water
especially as summer approaches

Water is great for other reasons. In April of 2002, researchers at Loma Linda University found that people who drank five 8-ounce glasses of water daily were about half as likely to die of coronary heart disease as those who drank two glasses of water or less.

A few correlational studies have shown that individuals who consume 8 cups of water per day are less likely to suffer from:

colon cancer, urinary tract cancer, urinary stone disease, salivary gland disorders, childhood and adolescent obesity

Water carries many other benefits:

Drinking plenty of water may help relieve headaches. Some of the most common headaches are due to dehydration. This may contribute to altitude sickness as well. Proper hydration will help

keep your joints and muscle lubricated so you're less likely to cramp or sprain.

Drinking water improves the vitality of your skin. You will look younger if your skin is healthier.

Drinking water regulates your body temperature and helps fuel your muscles.

Water also helps flush out the toxins and waste products from your body.

Without water, your heart will have to work harder to pump oxygenated blood to all cells, and so will the rest of your vital organs, which can cause fatigue. Drinking water will relieve fatigue of this kind.

So, drink up, but stay close to the guidelines above.

To your health and fitness
