REDISCOVER

Nedonna Lake & White Dove Pond: located in the Nedonna Beach area and is stocked with rainbow trout by Oregon Department of Fish and Wildlife.

Crescent Lake: is just north of Lake Lytle and is considered part of the Lake Lytle fishery. The lake is separated from U.S. Highway 101 by private property. NE Lake Boulevard skirts the woods around the lake to the north and east.

Lake Lytle: The largest lake in Rockaway Beach is Lake Lytle, which also offers a county boat launch. It contains trout, bass and is a fun family fishing spot.

Seaview Lake: located in the middle of Rockaway Beach. Our newest Join Project between the City of Rockaway Beach and Local Lions.

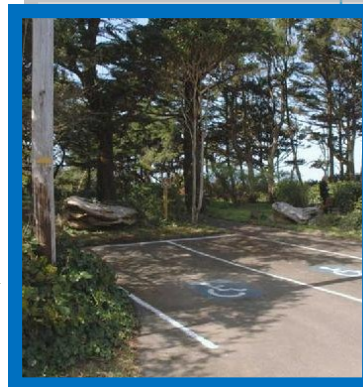

Lake Marie: is a small lake just east of Highway 101 between Minnehaha and Washington Streets. The site of the Stanger Memorial Park and Community Garden.

Spring Lake: Spring Lake has Trout and Bass and is located at the south end of Rockaway Beach on the east side of Highway 101. Public bank access is restricted to the highway shoulder. Parking along the highway is limited, extreme caution should be

Rockaway Beach City Park: Covering four city blocks, Seaview City Park is a lovely spot for all ages. The park is two blocks east of U.S. Highway 101 and a block north of N. 3rd Avenue. It is accessible from N. Coral Street on the west and N. Falcon St. on the east.

Ed Hart Park: This charming little park stands on the site that was formerly the home of one of Rockaway Beach's pioneers -- Mrs. Edith Hart. The actual address is 19820 Breaker Ave., which is just north of West Washington St. It is now a Tillamook County park for all to enjoy.

Kelly's Brighton Marina & Jetty Fishery: both just a few miles north of Rockaway, boat rentals, dock crabbing, RV rental spots, live seafood for sale and food. 503-368-5745/503-368-5728.

OLD GROWTH CEDAR NATURE PRESERVE

Deeded to the City of Rockaway Beach by a private land owner to be used for scientific and educational purposes. This nearly 45 acre parcel of land is home to countless animals, bird flora and fauna that is breathtaking. The mammoth Western red cedar at the end of the trail in Rockaway Beach ranks among Oregon's biggest trees in circumference, at 49 feet.

BEACHCOMBING

K I T E F L Y I N G B I R D W A T C H I N G

TWIN ROCKS

Twin Rocks is composed of basalt formed from ancient volcanic activity. At one time, the entire area, including what is now the Coast Range, was an undersea marine environment and part of the continental shelf, just as the ocean floor off the coast is today.

OCEANS EDGE WAYSIDE

Located between S1st Ave between Highway 101 and S Pacific St. This is the most visible of all the beach access points and the one most often used. The spot where the Salt Water Natatorium once stood.

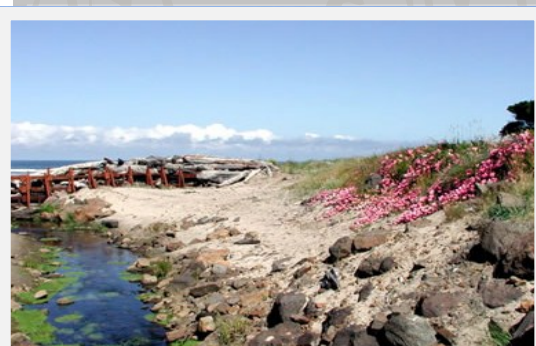

SOUTH JETTY NEHALEM BAY

To get to the jetty, your only access is Beach Drive, which comes off Beach Street from Highway 101 at the Manhattan Beach turn.

EMILY REED 102 YEAR OLD SHIP WRECK A shipwreck that has played peekaboo in the coastal sands off Rockaway Beach for more than 100 years. The Emily G. Reed ran aground in 1908, footsteps from Rockaway's downtown. It can be in the sand when the tide is low and the storms are strong (usually during winter months).

AN OLD FASHIONED BEACH TOWN...

On the Ocean's Edge surrounded by majestic mountains with the smell and the sound of the Sea. Sprinkled with lakes, ponds and trails, quaint shops and great dining.

HOMESTEADING...

In the beginning... Before the jetties were built in the early 1900's, there was a wide sandy beach all the way from Garibaldi to Nehalem Bay. This beach served as the only access to this area, which was then known as "Garibaldi Beaches." The area remained nearly isolated to all but a few hearty souls who would drive up the beach by horse and wagon or walk during low tide.

After several unsuccessful plans for a railroad line from Portland to Tillamook, the Pacific Railway and Navigation Company promoted by Elmer E. Lytle opened to Hillsboro in 1906, and the first steam engine was delivered to Tillamook about 1907. The coastal land homestead claims, once considered near worthless, took on a new value, and a flurry of subdividing into town sites took place from 1909.

About 1910, the Pacific Railway and Navigation line ran flatcars as far as Salmonberry, and the first train from Portland arrived in Tillamook in October, 1911. The railroad was the vital factor in the development of the Rockaway area.

The train from Portland back in the teens and 20's was the main mode of transportation to the coastal communities. It was an all day, dusty, long trip by car over gravel and plank roads, so the old steam trains played an important role in those early days. The train left Portland around 9 a.m. and arrived in the Rockaway area about 2:30 p.m. An extra engine was used to help it over the summit.

The first passenger train came to Rockaway in 1912. At all the beach resorts in those days, it was quite an occasion when the Friday afternoon train arrived, bringing the daddies who were joining their families for the week-end, thus earning the name of "Daddy-Train."

Today you will find "The Little Red Caboose" that serves as The

Rockaway Beach Chamber of Commerce office set up at the Wayside as a symbol and tribute to these beginnings.

The City limits of Rockaway Beach now encompasses the subdivisions or town sites from north to south named Manhattan, Highland Park Addition to Manhattan, Moroney Town, Lake Lytle, Beal's Addition to Lake Lytle: Seaview Park, Rockaway Beach, Elmore Park, Tillamook Beach (known as Saltair), Midway Beach, Twin Rocks, and a small portion of Ocean Lake Park. Information about these developments was gleaned from old abstracts, plat filings and records, as well as the stories of the early settlers and "summer people."
