

# VOTE TODAY!

[www.refresheverything.com/childrenslivinghistoryfarm](http://www.refresheverything.com/childrenslivinghistoryfarm)  
And everyday through May 31, 2010

The "Children's Living History Farm" would allow urban children the opportunity to learn the history and importance of the American Farm. Families would be able to visit the farm and get hands on experience in the care and growth of everything from livestock to the vegetable garden.

**We need your votes to make this happen right here in St. Charles County.** The Children's Living History Farm will be set up as a 5013c not for profit.
