

Vx 680 Wireless Terminal

with EMV & NFC (Contactless) Readers

Accept next generation payments.
Anywhere.

A registered ISO/MSP of Wells Fargo Bank
& First National Bank of Omaha

Go where you want.

The Vx 680 is ideal for merchants on the go and pay-at-the-table scenarios, enabling you to accept payment wherever your customers are. Accept payments with a wireless solution that is NFC and EMV ready to support mobile wallets and emerging EMV cards.

Do it all.

A touch screen with intuitive buttons allows your customers to interact directly with the Vx 680 without handing over their credit cards. The color screen can also display engaging graphics or logos.
