Renowned Businessman to Speak to Area Business Owners

Renowned businessman and serial entrepreneur, Bob Williamson, will speak to area small business owners at the Chamber Small Business Conference, sponsored by Southwest Georgia Bank, on Sept. 14 at the James H. Rainwater Conference Center. Williamson will share how to turn even the worst circumstance into business success.

Williamson, CEO of the Williamson Group USA, has achieved national acclaim for his business acumen and philanthropic efforts. He has founded 11 successful businesses, with his largest accomplishment being the establishment of Horizon Software International; a company sold for \$75 million that revolutionized the institutionalized food service market with its innovative software.

Williamson's accomplishments are all the more inspiring when you learn of the tremendous personal challenges he overcame to create this success. Once homeless and drug addicted, Williamson decided to change his life, and is now one of America's leading businessmen.

Join small business owners from across our region to learn secrets for overcoming your business obstacles. To register or receive more information, visit www.ValdostaChamber.com. The deadline to register is Sept. 12.
