Alvarado is double board certified by the American Board of Allergy and Immunology, and he completed fellowship training at Baylor College of Medicine in Houston, Texas. His affiliations include South Georgia Medical Center and Smith Northview Hospital and is senior partner at South Georgia Pediatric & Allergy Center, PC.

### **Warren named Ambassador of the Quarter**

Jamie Warren, placement specialist at New Hire Solutions, was named Ambassador of the Quarter by the Valdosta-Lowndes County Chamber.

Warren has been with New Hire Solutions for four months, and became a Chamber Ambassador in April.

Since becoming an Ambassador, Warren has attended almost all Ambassador events totaling approximately

25 hours of volunteer service.

The Chamber currently has 39 Ambassadors who are professionals from local Chamber businesses. The Ambassadors serve as the public relations arm of the Chamber by participating in ribbon cuttings, ground breakings, member crashers, Leading Business of the Week and other social events.

In addition to the vital role they play as Chamber Representatives, they are also encouraged to introduce themselves and their businesses to the members they visit which provide additional networking opportunities. The Chamber's Ambassadors can be recognized by their green jackets which symbolize prosperity, something they wish for every Chamber member.

If you are interesting in becoming an Ambassador, contact Sandy Prentiss at the Chamber at [SPrentiss@ValdostaChamber.com](mailto:SPrentiss@ValdostaChamber.com) or 247-8100.
