DEADLY BLUE FLASH:

A HISTORY OF NUCLEAR
CRITICALITY ACCIDENTS

with **Dr. Christopher Perfetti**
Associate Professor in Nuclear Engineering
University of New Mexico

Dive into the fascinating and riveting world of nuclear criticality with Dr. Christopher Perfetti. This presentation uncovers the causes behind several fatal criticality accidents and reveals how these incidents transformed the practice of nuclear safety, influencing the procedures and protections used across the industry.

TICKETS CAN BE PURCHASED AT NUCLEARMUSEUM.ORG OR AT THE DOOR
Beer and Wine provided by Bombs Away Beer Company
