Nooter/Eriksen, is an engineering company which designs and supplies heat recovery steam generators (HRSGs) for the power industry, located in Fenton MO.

We are hosting a free event to introduce and encourage participation by girls in engineering. Women are typically underrepresented in the field and we hope to educate girls about the opportunities in engineering and encourage more women to enter the profession. We want women in engineering to become the norm.

It will be a fun half day of learning and include hands on engineering activities as well as a discussion about careers with women engineers. Lunch will be included.

35th Annual FACC Golf Tournament at Tapawingo Golf Club

Join us for a fun-filled day out at Tapawingo for the Fenton Chamber's most popular fundraiser; this event sells out each year with over 40 teams! Four-person teams play 18 holes in a scramble format at Tapawingo National Golf Club in Sunset Hills which provides three unique and challenging courses with well-maintained grounds and beautiful scenery. Proceeds from the tournament go towards facilitating new Chamber programs and growing the FACC Scholarship Fund. To date, the Fenton Chamber has awarded over \$360,000 to area high school graduates.

Here's what you can look forward to:

Four-Person Scramble: Work together as a team with the scramble format in which each player tees off on every hole and the team chooses the best shot. This is a great way to have fun, be competitive, and maybe even shave some strokes off your score!

Challenge Yourself at Tapawingo: Test your skills on the beautiful Tapawingo National Golf Club course. With its stunning scenery and well-maintained greens, this course offers a challenge for golfers of all abilities.

More Than Just Golf: Enjoy a day of camaraderie and friendly competition. Mingle with fellow golfers, enjoy refreshments and on-course contests and beverage stations, then celebrate your achievements at the post-tournament gathering.
