Score: Tech is for Everyone
https://www.score.org/seattle/event/tech-everyone-how-make-tech-work-you-and-your-business-121725
02:00 PM - 04:00 PM PST
In this day and age, technology is an integral part of every single industry, whether we understand it or not. "Tech Is For Everyone" is a course designed to equip you with the knowledge you need to succeed in modern business, no matter where you're starting from. Join this informative and valuable one hour seminar to learn the basics about websites, networks, file storage and sharing, hardware, software, and managing employee access.

About the presenter: David Spitzer has been fascinated with technology since he first hacked into his highschool's internal network at the age of 16. Today finds him as founder and lead engineer at Spitzer Technology Consulting, a Portland based managed services provider. SpitzerTech offers services to a wide range of industries, helping them handle whatever IT issues they may face. Comfortable tackling everything from bigger projects (network installs, website builds) to everyday support ("help, my computer is acting funky!"), David thrives when he has a problem to solve. His goal in teaching with SCORE is empower small business owners, like himself, to make smart decisions for their businesses, without fear.

SCORE: Financial Basics for New Small Businesses
https://www.score.org/seattle/event/financial-basics-new-small-businesses-121825
01:00 PM - 05:00 PM PST
This workshop is designed to give you, the business owner, the financial skills and know-how needed to perform key tasks like to determine how to accurately compute the amount of funding you'll need to start your business. You will also learn how to project your future financial results realistically including:

· *Projecting sales for a new business*

· *Understanding your cost of goods sold and gross margin*

· *Being able to project your operating expenses*

· *Calculating your net income.*

· *Planning your cash flow successfully.*

This workshop includes a special section on creating financial statements for service businesses.

Proper management of finances is crucial to any business's success and a special set of skills is needed to understand and create these critical financial statements. This workshop is suitable for everyone whether you are starting a new business or need to update your skills.

This is an interactive workshop. We encourage participation by all attendees -- so bring along your questions!

Listen to what others who have attended this workshop have to say about the instructors and the program:

· *Really helped me understand the projection of fixed and variable costs and how to make a cash flow statement.*

· *The workshop examples are easy to understand and the financial templates provided are immensely valuable.*

· *Now I know what mistakes I'm am making in my business and how to fix them.*

· *I appreciated that they had financial examples for service-based businesses.*

· *This workshop far exceeded my expectations on what I thought I would learn.*

Presenter

This workshop is presented by SCORE Volunteer Suzanne Rouaix. Suzanne is the founding member of SDR Franchise Brokerage, LLC, and is an independent and certified franchise broker specializing in highly individualized franchise search and support services for aspiring franchise owners. She is an established consultant in all phases of small business operations. Suzanne received her MBA in entrepreneurship from Simmons University in Boston, and her BBA in finance from Loyola Marymount University in Los Angeles.

SCORE's Small Business Essentials Workshops prepares individuals to make the right decisions and create actionable plans when starting a small business. Whether you are starting a business on your own (one-person business) or a business with employees, we have the right set of workshops to help you succeed. All the workshops are about three hours in length and taught by experienced SCORE Mentors. See more information on these workshops

December 30, 2025   **SCORE: Increase Sales and Profits with Pricing and Distribution Strategies**

https://www.score.org/seattle/event/increase-sales-and-profits-pricing-and-distribution-strategies-12302

01:00 PM - 03:00 PM PST

You've developed a wonderful new product or service and understand the costs but how should you price it? This workshop is part of SCORE's Small Business Essentials series. We start by reviewing different distribution and channel strategies and help you choose the method that best gets your product or service in front of your satisfied customers. The rest of the workshop is focused on pricing, and we start by covering some pricing basics. Then we review a detailed process to determine how you can determine the price of your product. Since pricing, a service is very different than a product, we have a special section the covers the separate process for pricing your services.

SCORE's Small Business Essentials Workshops prepare individuals to make the right decisions and create actionable plans when starting a small business. Whether you are starting a business on your own (one-person business) or a business with employees, we have the right set of workshops to help you succeed.

Presenter

This workshop is presented by Bill McDonald, a SCORE Volunteer Mentor. Bill has an extensive background leading programs/projects involving strategy, process, operations, and technology. After a ten-year career in manufacturing, wholesale and distribution businesses, Bill worked eleven years for some of the world's best known management consulting firms such as McKinsey (fellow), AT Kearney, EDS, and PriceWaterhouseCoopers. He has led several acquisition projects including the pre and post integration phases. In the last twenty-one years he has worked with established and startup businesses on the creating, running, and growing innovative business models. He is a public speaker on these topics. Bill coauthored, with Microsoft, a book outlining the alignment of competitive strategy, business and information technology architectures optimizing business worth. Bill graduated from the University of Dallas with an MBA in General Management and received a BA in Economics from Ohio Wesleyan University. Bill has lived in the Seattle Area for the last twenty-eight years with his wife and two daughters.
