

The David M. Sindelar Cancer Center. Now open at Mercy Hospital South.

After two years and a community investment of over \$50 million, the Sindelar Center is now bringing hope and healing to cancer patients in south St. Louis County.

Features include:

- Advanced cancer care technology and expertise
- A calming atmosphere and setting
- The Rooney Breast Center for early detection and treatment of breast cancer
- Family support programs
- Café, chapel, boutique and conference center
- Infusion center
- Integrated Health and Wellness programs (massage, healing touch, acupuncture and more)

For safety's sake, we're celebrating the completion of the Sindelar Center virtually. View our Grand Opening video [here](#). ➤

Your life is our life's work.
