Do You Know Where to Go?

St. Luke's URGENT CARE

COVID-19 testing is not being performed at the St. Luke's Des Peres Emergency Department or St. Luke's Urgent Care Centers at this time.

If you are experiencing symptoms of fever, cough and difficulty breathing, especially if you have traveled recently, please call your physician or the health department with your concerns.

We are open and here for your family's minor medical emergencies.

- Cold and flu symptoms
- Sprains and broken bones
- Cuts and scrapes
- Eye injuries
- Rashes and burns
- Animal and insect bites
- Urinary tract infections (UTI)
- Ear Infections
- On-site lab and X-ray services
- Pre-operative lab work
- Workplace Health
- Specialist referrals
- Flu shots
- Sports physicals

If you are experiencing symptoms of fever, cough and difficulty breathing, especially if you have traveled recently, *or* had close contact with an ill patient with a confirmed laboratory COVID-19 patient, please contact your physician who can order a COVID-19 test for you. If your physician orders a COVID-19 test, you will be scheduled for an appointment to come to St. Luke's Hospital campus.
Drive-thru testing is now available from the hours of 8:00 AM to 4:00 PM and run Monday through Friday for the foreseeable future. When you arrive on the St. Luke's Hospital Chesterfield campus, please follow the signage instructing you where to go for this drive-thru testing.

Open 8 a.m. – 8 p.m. daily.
Online Check-in | Walk-ins welcome!
