**WHAT HAPPENS AT A RELAY FOR LIFE EVENT?**

Relay For Life events are community events where teams and individuals camp out at a school, park, or fairground and take turns walking or running around a track or path. Each team has at least one participant on the track at all times and participates in fundraising in the months leading up to the event. Individuals and teams raise money and awareness to help the American Cancer Society save lives. Symbolizing the battle waged around the clock by those facing cancer, the event can last up to 24 hours and empowers communities to take a stand against the disease and take action by supporting the Society's lifesaving mission.

**Groundbreaking cancer research** so cancer never steals another year from anyone's life.

**Education and prevention efforts** for those currently battling the disease and those who may face a future diagnosis.

**Free information and services** for cancer patients who need them.

**Advocacy through the American Cancer Society Cancer Action Network<sup>SM</sup> (ACS CAN)** to make cancer a national priority.
