# COMMUNITY AWARENESS TRAINING

*To date, over 10,000 incidents have been reportedly caused by Lithium-Ion battery failure. These incidents have resulted in millions of dollars in damages and risks the safety of the citizens in our communities. With the increased use of Li-ION batteries, these incidents are increasing exponentially, year after year.*

*Join your community in increasing your awareness of the risks posed by Lithium-ION batteries, and proactive steps that can be taken to prevent a Lithium-ION incident within your home, school, workplace, or community.*

## Topics Covered:

- ✓ Basic overview of Li-ION batteries
- ✓ Proper use, storage, and selection of Li-ION powered devices
- ✓ Available resources/tactics to protect yourself against Li-ION incidents
- ✓ Signs of potential battery failure
- ✓ <sup>123-456-7890</sup> Actions to take in an emergency

*This training is developed and taught by a retired firefighter from Renton, WA, who has been on the forefront of Lithium-ION battery response for the past 10 years.*
