EMPOWER YOURSELF WITH THESE KEY TAKE-A-WAYS:

- Continually Learn, Unlearn, and Relearn. When was the last time you stopped using a proven method to risk discovering a better method?
- Value Yesterday But Live In Today. "People may honor you for what you did yesterday, but they respect you for what you're doing now." What are you doing today that will increase others' respect of you?
- Rely On Speed, But Thrive On Timing. Describe for your group a time when you missed an opportunity. What can you do today that will result in you seeing the moments so you can seize the moments?
